CONTENTS OF VOLUME 3

Number 1, January 1972

Announcement iii

Editorial iv

Jean-François Bach and Mireille Dardenne. Antigen Recognition by T Lymphocytes. I. Thymus and Marrow Dependence of Spontaneous Rosette Forming Cells in the Mouse 1

Jean-François Bach and Mireille Dardenne. Antigen Recognition by T Lymphocytes. II. Similar Effects of Azathioprine, Antilymphocyte Serum, and Anti-Theta Serum on Rosette-Forming Lymphocytes in Normal and Neonatally Thymectomized Mice 11

Kirstine Borum and Nils Jonsson. Influence of Neonatal Thymectomy Upon the Cell-Mediated Tumor-Specific Immunity in Rous Sarcoma Virus Tumorigenesis in Rats .. 22

M. Pinto, R. Sharon, and A. Rimon. Lymphocyte Activation by Phytohemagglutinin and by Supernatants of Antigen-Stimulated Lymphocyte Cultures as Determined by Pock Formation on Chorioallantoic Membrane 33

Gary Birnbaum, Gregory W. Siskind, and Marc E. Weksler. Autologous and Allogeneic Stimulation of Peripheral Human Leukocytes 44

Samuel P. Gotoff and Irene F. Vizral. The Macrophage Aggregation Assay for Delayed Hypersensitivity: Development of the Response, Role of the Macrophage, and the Independence of Humoral Antibody 53

Edward S. Golub. Regulation of the Immune Response. I. "Accelerated" Response Induced by Suboptimal Antigen Concentration 62

Edward S. Golub. Regulation of the Immune Response. II. Transfer of the "Accelerated" Response 70

Franco Quagliata and Julia M. Phillips-Quagliata. Competence of Thoracic Duct Cells in the Transfer of Adjuvant Disease and Delayed Hypersensitivity. Evidence that Mycobacterial Components Are Required for the Successful Transfer of the Disease 78

J. J. Kramer and G. A. Granger. The *In Vitro* Induction and Release of a Cell Toxin by Immune C57Bl/6 Mouse Peritoneal Macrophages 88

Bertie F. Argyris, Helen Haritou, and Adele Cooney. Density Gradient Fractionation of Mouse Lymphoid Tissues. I. Plaque-forming and Rosette-forming Cells in Normal, Sensitized and Tolerant Spleen 101

W. J. Halliday. Macrophage Migration Inhibition with Mouse Tumor Antigens: Properties of Serum and Peritoneal Cells During Tumor Growth and After Tumor Loss .. 113

Bernard N. Jaroslaw and L. Ortiz-Ortiz. Influence of Poly A–Poly U on Early Events in the Immune Response *in Vitro* 123

Short Communications

E. A. Luria, A. F. Panasyuk, G. N. Kuzmenko, and A. Y. Friedenstein. Effect of Tuberculin and Freund's Adjuvant on the Formation of Fibroblast Colonies by Immunocompetent Cell Populations 133

B. F. Mackler, A. A. Amkraut, and A. Malley. Cellular Receptors for PHA and Antigen-Induced Transformation of Peripheral Blood and Thoracic Duct Lymphocytes 138

J. J. Kramer and G. A. Granger. An Improved *In Vitro* Assay for Lymphotoxin .. 144

George E. Pierce. *In Vitro* Effects of Syngeneic Lymphocytes and Serum on F_1 Hybrid Fibroblasts 150

Robert E. Click, Loretta Benck, and Barbara J. Alter. Enhancement of Antibody Synthesis *In Vitro* by Mercaptoethanol 156

Marilyn L. Bach, Marie A. Engstrom, Fritz H. Bach, Edward E. Etheredge, and John S. Najarian. Specific Tolerance in Human Kidney Allograft Recipients 161

Book Review 167
Meeting Report 169
Announcement 172
Papers to Appear in Forthcoming Issues 173

Number 2, February 1972

Luis Jimenez and Barry R. Bloom. A Kinetic Approach to Cellular Interaction in Delayed-type Hypersensitivity 175
Richard A. Johnson, Terrill K. Smith, and Charles H. Kirkpatrick. Augmentation of Phytohemagglutinin Mitogenic Activity by Erythrocyte Membranes 186
Franco Quagliata, Julia M. Phillips-Quagliata, and George L. Floersheim. Immunosuppression by Procarbazine. I. Sites of Action of the Drug and Effect on Adjuvant Arthritis and Circulating Antibody Responses 198
J. Sprent and J. F. A. P. Miller. Interaction of Thymus Lymphocytes with Histoincompatible Cells. III. Immunological Characteristics of Recirculating Lymphocytes Derived from Activated Thymus Cells 213
John J. Miller III and Saija Koskimies. Studies of Nonmigrating, Long-Lived Lymphocytes in Rats. I. Reactions after Antigenic Challenges *in Situ* 231
Joseph Kaplan. Staphylococcal Enterotoxin B Induced Release of Macrophage Migration Inhibition Factor From Normal Lymphocytes 245
Douglas Waterfield, Julia Gerwing Levy, Douglas G. Kilburn, and Ronald M. Teather. The Effect of Haptenic Peptides from Performic Acid Oxidized Ferredoxin from *Clostridium pasteurianum* and Protein Carrier-Hapten Conjugates on the Immune Response of Macrophages and Lymphoid Cells from Animals Immunized Against Oxidized Ferredoxin 253
Robert E. Click, Loretta Benck, and Barbara J. Alter. Immune Responses *In Vitro*. I. Culture Conditions for Antibody Synthesis 264
Oded Kuperman, Diane J. Yashphe, Shimon Sharf, Shlomo Ben-Efraim, and David W. Weiss. Nonspecific Stimulation of Cellular Immunological Responsiveness by a Mycobacterial Fraction 277
Robert E. Cone and Arthur G. Johnson. Regulation of the Immune System by Synthetic Polynucleotides. IV. Amplification of Proliferation of Thymus-Influenced Lymphocytes 283
R. H. Waldman, C. S. Spencer, and J. E. Johnson III. Respiratory and Systemic Cellular and Humoral Immune Responses to Influenza Virus Vaccine Administered Parenterally or by Nose Drops 294
Robert E. Scott and Vincent T. Marchesi. Structural Changes in Membranes of Transformed Lymphocytes Demonstrated by Freeze-Etching 301
Henric Blomgren and Birger Andersson. Inhibition of Erythroid Cell Growth in Irradiated Mice by Allogeneic Lymphoid Cells: A Quantitative Method for Graft-Versus-Host-Reactivity of Lymphoid Cells 318
Short Communications
R. V. Petrov and A. N. Cheredeev. High Resistance of Immunocompetent Spleen Cells to Repeated Exposure of γ-Radiation and Its Abolition by Syngeneic Lymphocytes 326
Bengt S. Nilsson. Differential Effect of Medium Change in Lymphocyte Cultures Stimulated by PPD Tuberculin or PHA 333
Papers to Appear in Forthcoming Issues 338

Number 3, March 1972

Joost J. Oppenheim. Modulation of *in vitro* Lymphocyte Transformation by Antibodies: Enhancement by Antigen–Antibody Complexes and Inhibition by Antibody Excess .. 341

J. Sprent and J. F. A. P. Miller. Interaction of Thymus Lymphocytes with Histoincompatible Cells. I. Quantitation of the Proliferative Response of Thymus Cells 361
J. Sprent and J. F. A. P. Miller. Interaction of Thymus Lymphocytes with Histoincompatible Cells. II. Recirculating Lymphocytes Derived from Antigen-Activated Thymus Cells 385
Hermann Wagner and Marc Feldmann. Cell-Mediated Immune Response *In Vitro*. I. A New *in vitro* System for the Generation of Cell-Mediated Cytotoxic Activity .. 405
Jonathan C. Howard and David W. Scott. The Role of Recirculating Lymphocytes in the Immunological Competence of Rat Bone Marrow Cells 421
David W. Scott and Jonathan C. Howard. Collaboration between Thymus-derived and Marrow-derived Thoracic Duct Lymphocytes in the Hemolysin Response of the Rat . 430
Orlando L. Meyers, Mamoru Shoji, Edgar Haber, Heinz G. Remold, and John R. David. Cellular Hypersensitivity: The Production of Antibody by Cultures of Lymphocytes Producing Macrophage Inhibitory Factor 442
J. S. Haskill and J. Marbrook. *In Vitro* Immunity to Sheep Erythrocytes by Fractionated Spleen Cells: Differentiation Within the Antibody-Forming-Cell Precursor Population 448
Harvey Cantor. The Effects of Anti-Theta Antiserum Upon Graft-Versus-Host Activity of Spleen and Lymph Node Cells 461
B. T. Rouse and N. L. Warner. Suppression of Graft-Versus-Host Reactions in Chickens by Treatment of Leucocytes with Anti-light Chain Sera 470
G. Jones and I. M. Roitt. Immunoglobulin Determinants on Lymphoid Cells in Culture . 478
Bengt S. Nilsson. The Response of Lymphocytes from Tuberculin-Positive or Negative Humans to Various Doses of PPD-Tuberculin *in Vitro* 493
Robert J. North. The Action of Cortisone Acetate on Cell-Mediated Immunity to Infection: Histogenesis of the Lymphoid Cell Response and Selective Elimination of Committed Lymphocytes 501
An-Ya Shih Wu and Byron H. Waksman. Cellular Differentiation in the Thymus. IV. Response of Rat Thymic Subpopulations to Anti-Thymus Serum and other Nonspecific Mitogens 516
Papers to Appear in Forthcoming Issues 529

Number 4, April 1972

Editorial. Robert A. Good. Transfer Factor i
Michael Bennett. Graft-Versus-Host Reactions in Mice. II. Antagonism Between Marrow and Thymus Cells 531
